NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

ABOUT US

Nemrex Industries is an industrial metal products and engineering components company engaged in manufacturing, stocking, sourcing and supply of a wide range of ferrous and non-ferrous metal products. We work with industrial customers who require standard products, specialized materials, customized components or difficult-to-source requirements.

Our portfolio covers basic metal products such as pipes, tubes, sheets, plates, bars and rods, together with engineered components including pipe fittings, flanges, valves, sight glasses, flow indicators and industrial fasteners. Selected products can be manufactured or developed against customer drawings, dimensions, material grades, specifications and applicable standards, subject to product feasibility.

Our approach is straightforward: understand the requirement, identify the right material and specification, and supply the product according to the applicable technical and commercial requirements. This allows us to support regular stock requirements, project quantities, specialized materials and made-to-order industrial components through a practical sourcing and supply process.

We serve customers across process industries, engineering, fabrication, infrastructure and other industrial applications, with a focus on responsive communication, dependable sourcing and requirement-based supply.

OUR VISION

To be a globally recognized industrial enterprise by delivering high-performance materials, precision engineering, and dependable supply solutions under one trusted brand.

OUR MISSION

To create lasting industrial value by supplying certified metals, delivering tailored engineering solutions, and serving client needs with speed, integrity, and operational excellence.

WHY NEMREX

- Quality and reliability
- Wide product range
- Technical expertise
- Customer-focused approach
- Long-term partnerships
- On-time project delivery

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

INDUSTRIES WE SERVE

Nemrex Industries caters to a diverse range of industries by delivering reliable metal products, precision-engineered components, and customized industrial solutions. With a strong understanding of material requirements and industry-specific applications, we support customers across critical sectors where quality, performance, and reliability are essential.

Our capabilities span standard industrial supplies and application-specific requirements, serving projects that demand dependable materials, consistent quality, and timely delivery. Through a customer-focusedapproach and a commitment to long-term partnerships, we aim to contribute to efficient operations and sustainable industrial growth across global markets.

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

PRODUCT OVERVIEW

Nemrex Industries offers a comprehensive range of ferrous and non-ferrous metal products, industrial components, and engineered solutions for diverse industrial and project requirements. Our portfolio serves process industries, heavy engineering, infrastructure, and manufacturing across multiple materials, grades, and specifications.

From essential metal products to pipe fittings, flanges, valves, and specialized components, we focus on meeting international standards and customer requirements. With flexible sourcing and a commitment to quality, we strive to deliver dependable supply, competitive value, and lasting customer confidence.

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

SHEETS, PLATES & COILS

Nemrex Industries offers a comprehensive range of premium Sheets, Plates, Coils, Circles, and Rings for diverse industrial applications. Available in both Hot Rolled (HR) and Cold Rolled (CR) forms, our products are sourced from trusted manufacturers and supplied with a commitment to quality, reliability, and timely delivery.

Sheets are flat metal products generally available in thicknesses up to 6 mm, making them ideal for fabrication, cladding, and general engineering applications. Plates, typically above 6 mm in thickness, are designed for heavy-duty, structural, and pressure applications. Coils are continuous rolled sheets supplied in HR and CR forms, offering efficient processing, easy handling, and reduced material waste during manufacturing.

Circles are precision-cut round blanks manufactured from sheets or plates and are widely used in pressure vessels, cookware, fabrication, and component manufacturing. Rings are circular blanks with a center cut-out, commonly used for flange manufacturing, machining, heavy engineering, and industrial fabrication applications.

PRODUCT TYPES

- Coil
- Strip
- Plain Sheet
- Perforated Sheet
- Embossed Sheet
- Dimple Sheet
- Chequered Sheet
- Plate
- Circle
- Ring

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel, Duplex & Super Duplex, Nickel Alloys, Titanium & Other Specialty Metals
GRADE	304, 304L, 316, 316L, 310, 321, 904L, 2205, 2507, Monel®, Inconel®, Hastelloy® & More
STANDARD	ASTM A240 / A480, ASME SA240, EN 10088, JIS G4304 / G4305, DIN, ISO & Other
SIZE RANGE	Standard & Custom Sizes Available in Various Thicknesses (As per Customer Requirement)
FINISH	HR, CR, 2B, BA, No.1, No.4, Hairline (HL), Mirror, Pickled, Matt & Custom Finishes

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

BARS & RODS

Nemrex Industries offers a comprehensive range of premium Bars and Rods for industrial, engineering, machining, and fabrication applications. Available in a variety of materials, grades, sizes, and finishes, our products are sourced from trusted manufacturers to ensure superior quality, dimensional accuracy, and reliable performance.

Round Bars are solid cylindrical products widely used for shafts, fasteners, machining, and precision engineering components. Flat Bars are rectangular sections ideal for fabrication, support structures, brackets, and industrial equipment. Square Bars offer excellent strength and are commonly used in construction, engineering, and general fabrication, while Hexagonal Bars feature a six-sided profile that makes them ideal for precision machining, fasteners, valves, and mechanical components.

PRODUCT TYPES

- Round Bar
- Round Rod
- Flat Bar
- Square Bar
- Hexagonal Bar

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel, Duplex & Super Duplex, Nickel Alloys, Titanium & Other Specialty Metals
GRADE	304, 304L, 316, 316L, 310, 321, 904L, 2205, 2507, Monel®, Inconel®, Hastelloy® & More
STANDARD	ASTM A276, ASTM A479, ASTM A182, ASME, EN, DIN, JIS, ISO & Other International Standards
SIZE RANGE	Standard & Custom Sizes Available in Various Thicknesses (As per Customer Requirement)
FINISH	Black, Bright, Cold Drawn, Hot Rolled, Peeled, Polished & Custom Finishes

sales@nemrexindustries.com | +91 93210 91317 | www.nemrexindustries.com

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

PIPES & TUBES

Nemrex Industries offers a comprehensive range of premium **Pipes** and **Tubes** for industrial, process, and engineering applications. Available in various materials, grades, sizes, and schedules, our products are sourced from trusted manufacturers to ensure superior quality, dimensional accuracy, and reliable performance.

Pipes are primarily designed to transport fluids, gases, and steam, and are generally specified by their Nominal Pipe Size **(NPS)** and Schedule (Wall Thickness). **Tubes** are manufactured with precise Outside Diameter **(OD)** and wall thickness, making them ideal for structural, mechanical, instrumentation, and heat exchanger applications. We both provide Seamless and Welded Pipes & Tubes to meet diverse industrial requirements.

PRODUCT TYPES

- > Seamless Pipe
- > Welded Pipe
- > ERW Pipe
- > EFW Pipe
- > Round Tube
- > Square Tube
- > Rectangular Tube
- > Oval Tube

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel, Duplex & Super Duplex, Nickel Alloys, Titanium & Other Specialty Metals
GRADE	304, 304L, 316, 316L, 310, 321, 904L, 2205, 2507, Monel®, Inconel®, Hastelloy® & More
STANDARD	ASTM A312, ASTM A213, ASTM A269, ASTM A249, ASTM A790, ASTM A789, ASME, EN, DIN, JIS, ISO & Other International Standards
SIZE RANGE	Standard & Custom Sizes Available in Various Thicknesses (As per Customer Requirement)
FINISH	Annealed, Pickled, Polished, Bright Annealed (BA), Mill Finish & Custom Finishes

sales@nemrexindustries.com | +91 93210 91317 | www.nemrexindustries.com

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

PIPE FITTINGS

Nemrex Industries specializes in premium **Pipe Fittings** and offers contract **manufacturing** solutions for a wide range of industrial piping applications. Backed by technical expertise, trusted manufacturing partners, and stringent quality standards, we deliver precision-engineered components that meet international standards and the demanding requirements of process, engineering, and infrastructure industries.

Pipe Fittings are essential components used to connect, redirect, branch, reduce, or terminate piping systems, ensuring safe, efficient, and leak-proof flow. Designed for reliability and durability, they are widely used across oil & gas, petrochemical, chemical, power, pharmaceutical, marine, water treatment, and other industrial sectors.

CONNECTION TYPES

- > Buttweld Fittings
- > Socket Weld Fittings
- > Threaded Fittings
- > Outlet Fittings (Olets)
- > Sanitary Fittings

PRODUCT TYPES

- > Elbow
- > Reducer
- > Tee
- > Stub End
- > End Cap
- > Cross
- > Coupling
- > Union
- > TC Clamp
- > And More

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel, Duplex & Super Duplex, Nickel Alloys, Titanium & Other Specialty Metals
GRADE	304, 304L, 316, 316L, 904L,P9, P11, 2205, 2507, Monel®, Inconel®, Hastelloy® & More
STANDARD	ASME B16.9, ASME B16.11, MSS SP-43, MSS SP-75, ASTM, EN, DIN, JIS, ISO & Other International Standards
SIZE RANGE	Standard & Custom Sizes Available in Various Thicknesses (As per Customer Requirement)
FINISH	Annealed, Pickled, Polished, Bright Annealed (BA), Mill Finish & Custom Finishes

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

FLANGES

Nemrex Industries offers a comprehensive range of premium **Flanges** for industrial piping systems. Engineered to international standards and manufactured through trusted partner facilities, our flanges are available in a wide range of materials, grades, sizes, and pressure classes to ensure reliable performance in demanding applications.

Flanges are mechanical components used to connect pipes, valves, pumps, and other equipment, providing a secure, leak-proof, and easily maintainable piping system. Designed for strength, durability, and precision, they are widely used across oil & gas, petrochemical, chemical, power generation, marine, water treatment, and process industries.

PRODUCT TYPES

- Weld Neck Flange (WNF)
- Slip-On Flange (SOF)
- Blind Flange (BLF)
- Socket Weld Flange (SWF)
- Threaded Flange (THF)
- Lap Joint Flange (LJF)
- Spectacle Blind Flange (SBF)
- Ring Type Joint Flange (RTJ)
- Long Weld Neck Flange (LWN)
- Orifice Flange (OF)

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel, Duplex & Super Duplex, Nickel Alloys, Titanium & Other Specialty Metals
GRADE	304, 304L, 316, 316L, 310, 321, 904L, 2205, 2507, Monel®, Inconel®, Hastelloy® & More
STANDARD	ASME B16.5, ASME B16.47, EN 1092-1, DIN, BS, JIS, ASTM & Other International Standards
PRESSURE CLASS	Class 150, 300, 600, 900, 1500, 2500, PN Series & Custom Requirements
FINISH	RF, FF, RTJ, Tongue & Groove (T&G), Male & Female (M&F) & Custom Facing

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

VALVES

Nemrex Industries offers a comprehensive range of premium **Industrial and Sanitary Valves** designed for reliable flow control across diverse industrial applications. Engineered for safety, precision, and durability, our valves are manufactured to international standards and deliver dependable performance in demanding operating conditions.

Valves are used to start, stop, regulate, or control the flow of liquids, gases, steam, and other process media. Our portfolio includes both Industrial Valves for process industries and Sanitary Valves for hygienic applications in the food, beverage, pharmaceutical, dairy, and biotechnology sectors, ensuring efficient operation and long service life.

PRODUCT TYPES

INDUSTRIAL VALVE

- Ball Valve
- Gate Valve
- Globe Valve
- Butterfly Valve
- Check Valve
- Needle Valve
- Plug Valve
- Diaphragm Valve
- Control Valve
- Safety Valve

SANITARY VALVE

- Ball Valve
- Butterfly Valve
- Diaphragm Valve
- Check Valve
- Sampling Valve
- Mixproof Valve
- Divert Valve
- Aseptic Valve
- Tank Bottom Valve
- Zero Dead Leg Valve

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel, Duplex & Super Duplex, Nickel Alloys, Titanium & Other Specialty Metals
GRADE	CF8 (SS304), CF3 (SS304L), CF8M (SS316), CF3M (SS316L), WCB (Carbon Steel), LCB (Low Temp. Carbon Steel), F51 (Duplex), F53 (Super Duplex) & More
STANDARD	API, ASME, ANSI, BS, DIN, EN, ISO, JIS & Other International Standards
PRESSURE CLASS	Class 150, 300, 600, 900, 1500, 2500, PN Series & Custom Requirements
END CONNECTION	Flanged, Threaded, Socket Weld, Butt Weld, Wafer, Lug, Clamp End & Custom Connections

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

SIGHT GLASS & FLOW INDICATORS

Nemrex Industries specializes in premium **Sight Glasses and Flow Indicators,** offering standard and made-to-order solutions for diverse industrial process applications. Through trusted manufacturing partners and stringent quality standards, we deliver precision-engineered products designed to ensure reliable visual monitoring, operational safety, and long-lasting performance.

Sight Glasses and Flow Indicators are used to visually monitor the flow, level, color, and condition of liquids or gases without interrupting the process. Designed for accuracy, durability, and easy maintenance, they are widely used in chemical, pharmaceutical, food & beverage, water treatment, oil & gas, power generation, and other process industries.

PRODUCT TYPES

- Sight Glass
- Flow Indicator
- Tubular Sight Glass
- Sight Flow Indicator
- Full View Sight Glass
- Double Window Sight Glass
- Rotary Flow Indicator
- Reflex Level Gauge
- Transparent Level Gauge
- Inline Sight Glass

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel & Other Industrial Materials
GRADE	SS304, SS304L, SS316, SS316L, WCB, LCB & More
STANDARD	DIN, ANSI, ASME, BS, EN, ISO & Other International Standards
SIZE RANGE	Standard & Custom Sizes Available (As per Customer Requirement)
CONNECTION	Flanged, Threaded, Socket Weld, Butt Weld, Tri-Clamp (TC) & Custom Connections

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

FASTENERS

Nemrex Industries offers a comprehensive range of **Industrial Fasteners** for critical engineering and industrial applications. In addition to standard Stainless Steel and Carbon Steel fasteners, we specialize in made-to-order fasteners manufactured in High Nickel Alloys, Titanium, Duplex, Super Duplex, and other specialty materials through trusted manufacturing partners, ensuring precision, reliability, and compliance with international standards.

Fasteners are essential mechanical components used to securely join and assemble piping systems, equipment, structures, and industrial machinery. Designed for high strength, dimensional accuracy, and corrosion resistance, our products are widely used across oil & gas, petrochemical, chemical processing, marine, power generation, EPC projects, and other demanding industries.

PRODUCT TYPES

- Hex Nut
- Stud Bolt
- Threaded Rod
- U-Bolt
- Eye Bolt
- Anchor Bolt
- Dome Nut
- Socket Head Cap Screw
- Plain & Spring Washer

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel & Other Industrial Materials
GRADE	SS304, SS304L, SS316, SS316L, WCB, LCB & More
STANDARD	DIN, ANSI, ASME, BS, EN, ISO & Other International Standards
SIZE RANGE	Standard & Custom Sizes Available (As per Customer Requirement)

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

FILLER WIRES

Nemrex Industries offers a comprehensive range of premium **Filler Wires** for welding and fabrication applications across diverse industries. Sourced from trusted manufacturers and produced to international quality standards, our filler wires deliver excellent weld strength, corrosion resistance, and consistent performance for critical joining applications.

Filler Wires are used to join metals through TIG, MIG, and other welding processes, ensuring strong, durable, and high-quality welds. Available in a wide range of materials and grades, they are widely used in oil & gas, petrochemical, chemical processing, pharmaceuticals, food processing, power generation, marine, and fabrication industries.

PRODUCT TYPES

- TIG Wire
- MIG Wire
- Solid Wire
- Flux Cored

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel, Duplex & Super Duplex, Nickel Alloys, Titanium & Other Specialty Materials
GRADE	ER308L, ER309L, ER316L, ER310, ER2209, ER2594, ERNiCr-3, ERNiCrMo-3, ERTi-2 & More
STANDARD	AWS, ASME, ASTM, ISO, EN & Other International Standards
DIAMETER	Standard Diameters Available (As per Customer Requirement)

NEMREX INDUSTRIES

Forging The Backbone Of Modern Industry

STRUCTURAL STEEL

Nemrex Industries offers a comprehensive range of premium **Structural Steel** products for construction, fabrication, infrastructure, and industrial applications. Manufactured to international quality standards, our structural sections deliver superior strength, dimensional accuracy, and long-term durability, making them ideal for load-bearing and heavy-duty engineering projects.

Structural Steel forms the foundation of industrial structures, buildings, machinery, and support systems. Designed for high strength, stability, and reliability, our products are widely used across EPC projects, power plants, refineries, warehouses, manufacturing facilities, infrastructure, and general engineering applications.

PRODUCT TYPES

- Angle
- Channel
- Beam
- I-Beam
- H-Beam
- T-Section
- C-Section
- Z-Section

MATERIAL	Stainless Steel, Carbon Steel, Alloy Steel, Duplex & Super Duplex, Nickel Alloys, Titanium & Other Specialty Materials
GRADE	SS304, SS316, IS 2062, ASTM A36, ASTM A572, ASTM A992 & More
STANDARD	ASTM, ASME, EN, DIN, IS, JIS, ISO & Other International Standards
